

HEALTH AGREEMENT

When someone seeks chiropractic health care, and when a chiropractor accepts someone for such care, it is essential that both are seeking and working for the same goals.

Chiropractic does NOT diagnose or treat disease. Chiropractic only has one goal:

TO LOCATE, ANALYZE, AND CORRECT SPINAL INTERFERENCE TO THE NERVOUS SYSTEM

The purpose of the nervous system is to control and coordinate all bodily function. Interference to this master system produces improper function of the body. The SUBLUXATION (spinal misalignment producing nerve interference), in and of itself, is a detriment to life and health. Correction of the subluxation through a specific chiropractic adjustment allows the body to function at its optimum level. This allows the innate healing power of the body to work at maximum efficiency to restore, maintain, and promote natural health.

THE CHIROPRACTIC ADJUSTMENT RESTORES LIFE AND HEALTH TO ITS FULLEST POTENTIAL!

The appointments that you and the Dr. Tate schedule are **your investment in your health**. You will have his undivided time and attention, therefore it is vital that when you make an appointment you show up and are on time. **Out of respect to your health, our office, and other practice members, missed appointments will be charged our normal fee.**

I, _____, having read the above statements, and understanding them fully, do undertake chiropractic health care on this basis.
